Reply to Office Action dated 1/25/2006

Remarks/Arguments

This case has been reviewed and analyzed in view of the Official Action dated 25 January 2006. In the Official Action, the Examiner has found two inventions, namely, Group I directed to Claims 1-9 drawn to a switching power conversion circuit; and Group II directed to Claim 10 drawn to a saturable transformer. The Examiner has required that Applicant choose Group I or Group II for further prosecution in this case.

By this Amendment and Response, Applicant has canceled Claim 10 and elects Claims 1-9 for further prosecution.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
